<b>CESAR B PAULA Primary Examiner Art Unit: 2178</b>			

Continuation of 3. NOTE: Regarding Applicant's remarks concerning claim 1, that the Dodge reference was not necessitated by the prior amendments (p.9, last parag.) The Examiner disagrees, because Dodge was introduced due to the amendment filed on 4/18/07 (not previously submitted), wherein the book file having codes devoid of particulars unique to the needs of the originator(lim.b).

The Applicant further states that the combination of Warmus and Dodge does not teach the amended claims (p.11. The amendment requires a new search and/or consideration to determine whether the changed scope of the amended claims is cover by Warmus and Dodge.

There were portions remaining from previous action, that was accidentally left in the action. However, the claim language is still taught by Warmus' formats native to the originator's computer formats, such as pc computer, Word, etc. (col.10, lines 45-67, col.7, lines 34-54, col.11, lines 1-10).

Moreover, the Applicant states that Dodge does not teach the conversion of the book file into a solution-independent file (page 13, parag.4-5). The Examiner disagrees, because Dodge teaches the creation of a platform or solution independent file from a document(s) in a specific format as recited in the claims (col.4, lines 7-28, col.6, lines 20-67) .
